

Workshop on Job Scheduling Strategies for Parallel Processing – JSSPP

JSSPP Proceedings: Note that the proceedings for this workshop are not included in the regular IPDPSW 2013 volume. Interim proceedings containing a collection of the papers presented will be distributed at the workshop in electronic form. It is planned to also publish a post-workshop proceedings in the Springer Lecture Notes on Computer Science series, as was done in previous years (pending approval from Springer).

Workshop Organizers

Walfredo Cirne, Google
Narayan Desai, Argonne National Laboratory

Program Committee

Henri Casanova, University of Hawaii at Manoa
Julita Corbalan, Technical University of Catalonia
Dick Epema, Delft University of Technology
Gilles Fedak, INRIA
Dror Feitelson, The Hebrew University
Liana Fong, IBM T. J. Watson Research Center
Eitan Frachtenberg, Facebook
Alfredo Goldman, University of Sao Paulo
Allan Gottlieb, New York University
Alexandru Iosup, Delft University of Technology
Morris Jette, SchedMD LLC
Rajkumar Kettimuthu, Argonne National Laboratory
Dalibor Klusáček, Masaryk University
Zhiling Lan, Illinois Institute of Technology
Bill Nitzberg, Altair Engineering
David Oppenheimer, Google
Uwe Schwiegelshohn, Technical University Dortmund
Mark Squillante, IBM T. J. Watson Research Center
Wei Tang, Argonne National Laboratory
Dan Tsafir, Technion - Israel Institute of Technology
Ramin Yahyapour, GWDG - University of Göttingen
