

Szczecin, 21.05.2014

Problems and issues related to standardisation in electronic economy are discussed by entities and organisations both at the national and international level. The new European Union regulation on electronic identification and trust services (eIDAS), aims to introduce new standards and solutions that will enable development of e-commerce market.

We would like to invite you to the fourteenth edition of European Forum on Electronic Signature (EFPE 2014). European Forum on Electronic Signature is organized by Unizeto Technologies SA together with the West Pomeranian University of Technology and will take place on June 4-6, 2014 in Międzyzdroje, Poland.

The idea of the European Forum on Electronic Signature 2014 will be closely linked with a new regulation of the European Union on electronic identification and trust services (eIDAS). It is a crucial moment of legislation that standardize electronic signature in the European Union and shall allow for the cross-border use not only in member countries but also between them.

The main subject to be discussed this year is: "European Union regulation on electronic identification and trust services (eIDAS) – growth opportunities for world electronic economy".

Over 130 representatives of the government, business and science from Austria, Belgium, Belarus, Croatia, Czech Republic, Denmark, France, Greece, Kazakhstan, Germany, Russia, Hungary, Italy, Great Britain, Ukraine and Poland attended 13th EFPE Conference in 2013. It is most likely that the number of representatives of European governments, public and local administration, as well as national and foreign certification authorities, academic circles, scientists and businessmen from European Union, Poland, Russia and other countries will be even greater this year.

For more information please visit our Conference website – www.efpe.eu.
